

2014-15 Minnesota Math Corps Members

Whether you're looking to explore a new career in education, re-enter the workforce or simply want to work with youth, you're ready for the next thing. Become a Minnesota Math Corps math tutor at the **Pearson 6th Grade Center*** and start creating meaningful growth.

We are looking for people dedicated to our community. By joining Minnesota Math Corps, you can be one of more than 150 math tutors placed in schools across the state. Tutors are parents, grandparents, recent college grads and mid-career professionals, retired military, or anyone interested in helping students grow. You will provide research-based strategies and tools, monitor progress and ultimately, guide students who need extra support toward becoming successful in math by the end of eighth grade. It's a chance to explore life in a school, connect with students and create lasting change – both in your life and students' lives.

During your eleven month of service as a part-time Minnesota Math Corps tutor, you'll receive extensive training, support and professional development opportunities. In addition, you'll receive a stipend of about \$242 biweekly (part-time) and an education award of \$2,822 (part-time). All necessary training is provided and no licensure is necessary.

Pass the word on to a friend or family member! Positions for the 2014-15 school year begin in August. For more information or to apply, visit www.MinnesotaMathCorps.org or Contact recruitment@mnedc.org or 866-859-2825 with questions. You can also call Ms. Turry directly at Pearson. Indicate Pearson 6th Grade Center when completing the application.

*Full and part-time Math Corps positions also available at Eagle Creek, Sweeney, Sun Path, and Red Oak Elementary.
