

West Middle School Parking Lot - Drop-Off/Pick-Up Traffic Procedures

Student safety is always a top concern at West Middle School. To improve the flow of traffic during pick-ups and drop-offs we've developed procedures to make our parking lot safer during morning drop-off and afternoon pick-up for our students, staff, and parents.

The following plan will be effective during the school year.

From 7:15-7:45 a.m. all vehicles will be directed to enter and exit our main parking lot from Spencer Street St. Those needing to drop off students will turn right and follow the marked lane up to the main doors, then continue around the lot to exit south on Spencer. To increase efficiency for exiting the lot, left turns to the north onto Spencer St. will be restricted during this time. Traffic wanting to go north on Spencer will be redirected and have the option of using either 11th Avenue or Vierling Drive as an alternative.

[Click here to view the traffic flow map at WMS](#)

We will be routing traffic in our parking lot using temporary barriers around the perimeter of our lot up to the main entry. Parents can use both the entry sidewalk and the long median as safe drop off points for students.

Also indicated [on the map](#) is a designated quick drop-off point on 10th Avenue which does not require parents to enter the lot. Students dropped off at this location have access to a sidewalk that leads to our main entry.

Thank you in advance for your patience, understanding, and flexibility as continue to use this plan. We would also like to thank our School Resource Officers for their assistance in helping us establish this plan.
