## Interior Design

**Grade Level:** 9,10,11,12

**Credits:** SHS: 1 Credit

**Prerequisite:** None

**Program of Study:** Arts & Communication - Elective

**Description:** When you walk into a room, do you imagine a new design? Do you want to re-create the space in your own way? In Interior Design I, you will learn the basics of designing spaces for the interior and exterior of homes. This course will emphasize designing and drawing floor plans, types of furniture and furniture layout, window treatments, wall coverings, the history of housing, and the elements and principles of design. These skills will guide students to creatively and knowledgeably design rooms. Students will create floor plans and presentation boards that reflect their creativity as an interior designer.

## AP Studio Art – A & B

**Grade Level:** 11,12

**Credits:** SHS: 2 Credits

**College:** Possible college credit with a score of 3 or higher on a portfolio of work submitted to the College Board.

**Prerequisite:** Advanced Art Studio (must register in same academic year) This is an independent study course.

**Description:** This class is designed for students who are seriously interested in the practical experience of art and want to focus on medium. For this course, in lieu of an AP exam, students will submit a portfolio of work to the College Board for potential college credit.

The AP Program offers three portfolios: Drawing, 2-D Design, and 3-D Design. The portfolios share a basic, three-section structure, which requires the student to show a fundamental competence and range of understanding in visual concerns (and methods). It is recommended that some students provide their own materials for their medium.
