

SABER ▶ ONLINE

Saber Online is an accredited online learning program that was created for those independent students who thrive in an online environment.

Saber Online provides a full-time program for students in select elementary and middle school grades, and both full-time and part-time online opportunities for those in grades 9-12 starting in the 2022/23 school year. And the best part is... Saber Online students become a part of the Saber family regardless of where they live! The Saber Online Program is open to all elementary and secondary children that reside in the State of Minnesota.

Please check the below Saber Online Program that you are interested in. Please note that due to current enrollment, Saber Online is not available in Kindergarten, Grade 1 and Grade 6 for the 2022/23 school year. After completion of your full enrollment paperwork, an administrator from Saber Online will contact you to further discuss the Program and next steps.
