## **INTRODUCTION**

The Annual Comprehensive Financial Report (ACFR) of Independent School District No. 720, Shakopee, Minnesota (the District) for the fiscal year ended June 30, 2023, is presented for your information and review. The ACFR is intended to fully disclose the financial position of the District and the results of operations for the fiscal year. The District administration accepts full responsibility for the accuracy, completeness and fairness in presentation of the enclosed financial reports. Questions and comments are solicited and welcome.

## **REPORT FORMAT**

This ACFR is presented in three main sections: introductory, financial, and statistical. In addition to information contained in this letter, the introductory section includes the District's organizational chart and a list of the District's principal officials. The financial section includes the independent auditor's report, Management's Discussion and Analysis (MD&A), basic financial statements, notes to basic financial statements, and detailed combining and individual fund statements and schedules. The statistical section includes selected financial and general information presented on a multi-year comparative basis. Where possible, historical data is presented for a 10-year period.

Accounting principles generally accepted in the United States of America require management to provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of an MD&A. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MD&A of the District can be found immediately following the report of the independent auditors.

## **DISTRICT PROFILE/ORGANIZATION**

Shakopee Public Schools serves approximately 7,800 students in Shakopee, Savage, Prior Lake, and the Jackson, Louisville, and Sand Creek Townships. The district is in the southwest suburbs in the Twin Cities. The Shakopee school district is proud to serve a very diverse population of students and families with more than 70 languages and dialects from around the world spoken in our schools.

## **DISTRICT PROFILE/ORGANIZATION (CONTINUED)**

The District offers a wide variety of programming and activities for all students. At Shakopee High School, there are many opportunities for students to earn college credit and high school credit at the same time through our Advanced Placement courses; CAPS (Center for Advanced Professional Studies) program and CIS (College in the Schools). Other notable programs in the district include the pre-engineering program Project Lead the Way, Young Scholars which serves students in our elementary grades and our Excellence with Equity program.

The Shakopee School District is committed to providing the best opportunities for students and is dedicated to helping them excel and achieve their educational goals. Almost a decade ago, the district began to look at the curriculum, and together with the instructional staff, began re-imagining academics in the district. The secondary educational model was changed and a new vision for Shakopee High School, the Academies of Shakopee, was created to ensure a welcoming, inclusive environment within a large high school setting and to improve student success in post-secondary programs and career. There are six academies: Arts & Communication, Business & Entrepreneurship, Engineering & Manufacturing, Health Sciences, Human Services, Science & Technology and a Ninth Grade Academy.

With over 1,100 total staff, Shakopee Public Schools is one of the major employers in the area. During 2022-2023, the District operated 11 buildings: one traditional high school, one alternative high school, two middle schools, five elementary schools, an early childhood center and the district administrative office. District buildings have an average age of 31 years and comprise over 1.6 million square feet in size. The District is currently organized by grade level with elementary schools serving students in kindergarten through grade 5, middle schools serving grades 6-8, and the high school serving grades 9-12.

### **Mission**

Shakopee Schools, in partnership with our community, will educate lifelong learners to succeed in a diverse world.

### **Vision**

The Shakopee School District is committed to providing the best opportunities for our students. We are dedicated to helping them excel and achieve their educational goals and teaching them to be good citizens of our community, our nation and our world.

**DISTRICT PROFILE/ORGANIZATION (CONTINUED)**

**Testing Data**

The Minnesota Comprehensive Assessments (MCA's) are part of the state's school testing system and administered to students in the spring of each year. Students in grades 3-11 take assessments in Math, Reading and Science. The following graphs show district proficiency rates compared to the state of Minnesota in the areas of Reading and Math.

## **REPORTING ENTITY**

Independent School District No. 720, also known as Shakopee Public Schools, is an instrumentality of the State of Minnesota established to function as an educational institution. The elected School Board is responsible for policy and governance and fiscal control of Shakopee Public Schools. The School Board is responsible for the legal level of budgetary control at the fund level. The Superintendent is appointed by the Board and is responsible for administrative control of the District. The District's financial statements include all funds, departments, agencies, boards, commissions, and other component units for which the District is considered to be financially accountable. Component units are legally separate entities for which the District (primary government) is financially accountable, or for which the exclusion of the component unit would render the financial statements of the primary government misleading.

There are no organizations considered to be component units of the District.

## **FINANCIAL STATEMENTS**

The financial statements contained in this report disclose the financial position of the District as of June 30, 2023, and the financial operations for the fiscal year then ended. The District's financial records and reports are maintained and prepared on a modified or full accrual basis of accounting in accordance with the Uniform Financial Accounting and Reporting System for Minnesota School Districts as well as the standards of the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants. These records are audited annually by an independent certified public accountant as required by Minnesota law. The accounting firm of BerganKDV, LTD performed the audit for the 2022-23 fiscal year. Their report is included in the financial section of this report. The auditor has given an unmodified opinion on the District's financial statements. An unmodified opinion means that, in the judgment of the auditor, the financial statements present fairly, in all material respects, the financial position of the District and the results of its operations for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

## **FEDERAL SINGLE AUDIT AND STATE COMPLIANCE AUDIT**

The independent audit of the financial statements of the District is part of a broader, federally mandated Single Audit designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited District's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. The District is also required to undergo an annual Minnesota State Legal Compliance Audit under Minnesota Statute §6.65. These reports are available in a separate document.

## **ACCOUNTING AND BUDGETING**

A major thrust of the District's accounting system is to provide adequate internal accounting controls. These controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition, and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of internal controls should not exceed the benefits likely to be derived, and that the evaluation of the cost and benefits requires estimates and judgments by management. All internal control evaluations occur within the above framework. We believe that the District's internal accounting controls adequately safeguard assets and provide reasonable assurance for proper recording of financial transactions.

Budgetary control is maintained through an annual budget adopted by the School Board for all funds as required by state statutes and School Board policy. The adopted budget serves as the authorizing document for all expenditures, although the School Board approves all checks issued on a monthly basis. The Superintendent and Director of Finance & Operations are authorized to make financial commitments within budgetary guidelines. Additional expenditure controls are maintained by the Business Office in accordance with state statutes, i.e., the District cannot incur a negative unassigned balance in the General Fund in excess of 2.5% of the preceding year's expenditures.

The District has established a system of internal controls that provide reasonable assurance that assets are safeguarded from misuse or losses. Encumbrances, or open purchase orders, are used as a budgetary control tool and are charged against line item budgets when issued. Specific expenditure, revenue and detail transaction reports are available online or in hard copy for individuals with budget responsibilities. The reports can be viewed and printed either in the Business Office or in the administrative office in each building or department. Ongoing budget monitoring by program managers helps to ensure budget integrity and provides an opportunity to detect material budget variances before the end of the fiscal year.

The budget is adopted by the School Board in the spring of each year for the following fiscal year beginning July 1. If needed, the budget is revised based upon enrollment changes, effects of negotiated employee contracts, or other new information impacting revenues or expenditures in the fall, winter and spring. The revised budget is presented to the School Board for approval.

## **SIGNIFICANT EVENTS**

The District's finances are largely dependent on student enrollment; with the state basic general education formula allowance at \$6,863 per student for the 2022-23 school year. Since 2018, the District has been in a period of declining student enrollment, primarily derived from lower birth rates in Scott County. Over the 6-year period from 2017-18 to 2022-23, student enrollment has decreased by 439 students, or approximately 6% of the total enrollment. Decreasing student enrollment has mitigated recent advances in state aid funding for public school districts in Minnesota.

## **FINANCIAL PROSPECTS FOR FUTURE YEARS**

The voters supported the district and approved a Building Bond issue of \$102.5 million and a Capital Projects referenda of \$2.5 million in 2015. The Building Bond enabled the expansion of the high school and provided security improvements around the district as well as additional outdoor facilities. The Capital Projects money is utilized to support the Shakopee School District's technology needs for teachers and staff.

Voters in the District has Board approved referendum authority of \$1,266 per pupil in November 2021. 2022-23 was the first year of the additional levy authority. The referendum money will be used to maintain high quality educational programs and experiences for students.

Like all public school districts in Minnesota, Shakopee Schools relies on student generated revenue for funding in the general fund. The ability to project enrollment accurately is an important part of budget building. During 2022-23, the revised budget enrollment projection was 7,823 average daily membership (ADM). Actual enrollment was 7,827, a difference of 4 ADM from budget. Enrollment projections for the 2023-24 adopted budget are 7,642 ADM, a decrease of 185 from prior year actual.

## **ECONOMIC FACTORS**

The District is located in Scott County, which is part of the seven-county metro area of Minneapolis/St. Paul. Residents are typically employed in professional vocations within the metropolitan area.

The taxable market value of property within the District continues to increase. Referendum market values increased by over \$1.3 billion from 2021 to 2022 due to new construction and valuation increases. The communities located within the District continue to develop areas for residential and commercial expansion and growth.

In recent sessions, the State of Minnesota's general education funding has been providing an annual 2% increase. While these nominal increases are helpful, they fall far short of meeting today's educational needs.

## **INITIATIVES**

In August 2014, the district prepared a strategic plan to improve academic programming and increase student achievement results. The district has been on a steady mission to align curriculum and learning experiences with the heightened expectations of a more global, interconnected, and tech-savvy world. The strategic plan articulates expectations called deliverables for district officials and for schools to accomplish over the next five years. These deliverables are the district's benchmarks of progress and a means to assure all students are college and career ready.

Voters approved a bond and technology referendum in 2015 which includes:

- Expansion of the high school to accommodate 3,200 students in grades 9-12.
- Renovation or improvement of fields and stadiums
- 1:1 devices for all students in grades 3-12 and 2:1 devices for students K-2.
- Upgrade in security in a variety of buildings

The district has committed itself to our mission of college and career readiness for all students. In 2018, the district opened the Academies of Shakopee – the newly expanded high school houses six Career Academies. Ninth grade students will enter Freshman Academy surrounded by teams of teachers and staff to support their transition to high school. At registration time, they will choose a “home” career academy for their sophomore through senior year. These small learning communities will ensure they have a smooth transition to postsecondary and beyond.

Middle schools include grades 6-8 and truly fulfill the philosophy of middle schools to meet the unique needs of adolescent students. Middle schools provide a more personalized learning approach with a team of teachers to allow students more flexibility, student driven and self-paced learning.

The technology referendum fuels district efforts to ensure our students are ready for a global and interconnected world.

All of this work requires a significant investment of time and resources for training teachers to use a more personalized, student-driven, technology-rich learning environment.

## **INDEPENDENT AUDIT AND CERTIFICATE OF EXCELLENCE**

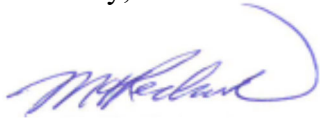

State statutes require an annual audit by independent certified public accountants. The accounting firm of BerganKDV LTD was selected by the School Board to conduct the annual audit.

This report has been prepared following the guidelines provided by the Association of School Business Officials International (ASBO) for their Certificate of Excellence in Financial Reporting Program. In 2022, the District received recognition from this program by receiving the Certificate of Excellence. Continuing to achieve recognition by this program is a goal of the District's Business Office and provides a clear indication of the District's high standards for financial reporting. The District plans to submit the 2022-2023 ACFR to the ASBO Certificate Program for consideration.

## ACKNOWLEDGMENTS

The time, effort, and attention that go into the timely preparation of a ACFR require the commitment and cooperation of many people. We acknowledge the efforts of the Business Office staff in providing complete and accurate data for this Comprehensive Annual Financial Report, as well as for their dedication and to the School Board for their encouragement and leadership.

Sincerely,

Dr. Mike Redmond  
Superintendent

**Independent Auditor's Report**

To the School Board  
Independent School District No. 720  
Shakopee, Minnesota

**Report on the Audit of the Financial Statements**

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 720, Shakopee, Minnesota, as of and for the year ended June 30, 2023, and the related notes to the basic financial statements, which collectively comprise the District's basic financial statements as listed in the Table of Contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 720, as of June 30, 2023, and the respective changes in financial position and, where applicable, cash flows thereof, and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

**Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Independent School District No. 720 and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**Emphasis of Matter – Implementation of GASB 96**

The District has adopted new accounting guidance, Governmental Accounting Standards Board (GASB) Statement No. 96, *Subscription-Based Information Technology Arrangements*. Our opinion is not modified with respect to this matter.

**Responsibilities of Management for the Financial Statements**

The management of Independent School District No. 720 is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, which raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, which raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

## **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, which follows this report letter, and Required Supplementary Information as listed in the Table of Contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by GASB, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the Required Supplementary Information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying supplementary information identified in the Table of Contents is presented for purposes of additional analysis and is not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### **Other Information**

Management is responsible for the other information included in the Annual Comprehensive Financial Report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated November 9, 2023, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

**Independent School District No. 720**  
**Management's Discussion and Analysis**  
**June 30, 2023**

This section of Independent School District No. 720's (the "District") annual financial report presents Management's Discussion and Analysis (MD&A) of the District's financial performance during the fiscal year ended June 30, 2023. Please read it in conjunction with the other components of the District's annual financial report.

**Overview of the Financial Statements**

The financial section of the annual report consists of the following parts:

- Independent Auditor's Report,
- Management's Discussion and Analysis,
- Basic financial statements, including the government-wide financial statements, fund financial statements, and notes to financial statements,
- Required supplementary information, and
- Combining and individual fund statements and schedules.

The following explains the two types of statements included in the basic financial statements:

***Government-Wide Statements***

The government-wide statements (Statement of Net Position and Statement of Activities) report information about the District as a whole using accounting methods similar to those used by private sector companies. The Statement of Net Position includes all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how it has changed. Net position, the difference between the District's assets and deferred outflows of resources and liabilities and deferred inflows of resources, is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position are indicators of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the District requires consideration of additional nonfinancial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the government-wide financial statements, the District's activities are all shown in one category titled "governmental activities." These activities, including regular and special education, transportation, administration, food services, and community education, are primarily financed with state aids and property taxes.

**Management's Discussion and Analysis**  
**June 30, 2023**

**Overview of the Financial Statements (Continued)**

***Fund Financial Statements***

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds, rather than the District as a whole. Funds that do not meet the threshold to be classified as major funds (Food Service Special Revenue Fund and Community Service Special Revenue Fund) are called nonmajor funds. Detailed financial information for nonmajor funds can be found in the supplementary information section.

Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

For Minnesota schools, funds are established in the Uniform Financial Accounting and Reporting System (UFARS) in accordance with statutory requirements and accounting principles generally accepted in the United States of America.

The District maintains the following three kinds of funds:

***Governmental Funds*** – The District's basic services are included in governmental funds, which generally focus on: 1) how cash and other financial assets that can readily be converted to cash flow in and out and 2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps to determine whether there are more or less financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information (reconciliation schedules) immediately following the governmental fund statements that explain the relationship (or differences) between these two types of financial statement presentations.

***Fiduciary Funds*** – The District is the custodian, or fiduciary, for assets that belong to others. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. All of the District's fiduciary activities are reported in a separate Statement of Fiduciary Net Position and Statement of Changes in Fiduciary Net Position. We exclude these activities from the government-wide financial statements because the District cannot use these assets to finance its operations.

***Proprietary Funds*** – Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide statements. The District uses internal service funds to report activities that provide supplies and services for its other programs and activities. The District currently has two internal service funds: the Self-Insured Dental Fund and Self-Insured Medical Fund.

The District's financial position is the product of many factors. For example, the determination of the District's investment in capital assets, net of related debt involves many assumptions and estimates, such as current and accumulated depreciation amounts. A conservative versus liberal approach to depreciation estimates, as well as capitalization policies, will produce a significant difference in the calculated amounts.

The financial position of the District improved this year as measured by total net position. For the year ended June 30, 2023, total net position increased by \$35,778,496. Net investment in capital assets increased by \$5,309,523 and unrestricted increased by \$27,268,150.

June 30, 2023**

**Financial Analysis of the District as A Whole (Continued)**

**Figure A – Sources of Revenue for Fiscal Years 2023 and 2022**

The largest share of the District's revenue is received from the state, which includes General Education Aid and most of the operating grants. Consequently, the District's funding depends significantly on the state's financial fluctuations.

Property taxes are generally the next largest source of funding. The level of property tax revenue is largely dependent on taxpayers of the District by way of operating and building referenda.

**Financial Analysis of the District as A Whole (Continued)**

**Figure B – Expenses for Fiscal Years 2023 and 2022**

The District's expenses are predominately related to educating students. The majority of the District's expenses were in categories directly related to providing instruction, which includes: elementary and secondary regular instruction, vocational education instruction, special education instruction, and instructional support services.

**Analysis of the General Fund**

The District is required to adopt an operating budget prior to the beginning of its fiscal year, referred to as the original budget. During the year, the District may change the budget for known significant changes in circumstances, such as updated enrollment, legislative changes, additional funding received from grants or other local sources, staffing changes, employee contract settlements, health insurance premium increases, special education tuition changes or utility rate changes. During the year, the District reviewed operating results and amended the original budget.

**Independent School District No. 720  
Management's Discussion and Analysis  
June 30, 2023**

**Analysis of the General Fund (Continued)**

Table 4 summarizes the operating results of the General Fund:

**Table 4  
General Fund  
Operating Results**

	2023 Actual	Over (Under) Final Budget		Over (Under) Prior Year	
		Amount	Percent	Amount	Percent
Revenues and other financing sources	\$ 122,775,045	\$ 5,389,518	4.39%	\$ 12,258,516	11.09%
Expenditures and other financing uses	<u>113,053,602</u>	353,129	0.31%	6,043,107	5.65%
Net change in fund balance	<u><u>\$ 9,721,443</u></u>				

Actual expenditures (no other financing uses in 2023) were slightly over budget at 0.31%. Actual revenues and other financing sources were over budget by 4.39% due to an increase in interest earnings compared to the prior year, and also conservative budgeting regarding state special education revenue and state general education revenue.

**Analysis of Remaining Major Funds**

The District's activity in the Capital Projects – Building Construction Fund is related to projects financed with general obligation (G.O.) building bonds. Voters approved a \$102.5 million building project in the spring of 2015. The money for the project was received in fiscal year 2016. A majority of the money was spent in fiscal years 2017 and 2018. The main component of the project increased the size of the current high school by over 300,000 square feet. The District also used the Capital Projects fund to improve security at several locations, make improvements at some outdoor facilities, and address energy efficiency and deferred maintenance projects in accordance with the facilities task force recommendations on long term facilities maintenance (LTFM). In November 2020, the District issued the 2020C G.O. Facilities Maintenance Bonds for \$24,068,822 to fund additional building maintenance projects.

Activity of the Debt Service Fund is largely controlled in accordance with each outstanding debt issue's amortization plan. The Debt Service Fund has approximately \$82.150 million of year-end fund balance to help finance future debt obligations.

**Capital Assets and Long-Term Liabilities (Continued)**

***Long-Term Liabilities (Continued)***

Scheduled payments resulted in the decrease of the Certificates of Participation payable. The District is leasing MacBooks and iPads from Apple as part of a district-wide technology initiative.

The state limits the amount of G.O. debt the District can issue to 15% of the market value of all taxable property within the District's corporate limits. (See Table 7.)

Additional details of the District's capital assets and long-term debt activity can be found in the Notes to the Financial Statements.

**Factors Bearing on the District's Future**

The general education program is the method by which school districts receive the majority of their financial support. This source of funding is primarily state aid and, as such, school districts rely heavily on the State of Minnesota for educational resources. The basic general education formula amount for all Minnesota school districts increased 2.0% to \$6,863 in 2023. An improving economy has reduced some of the challenges in funding education for Minnesota schools in recent years.

Shakopee Public Schools will need to continue to look at possible ways to increase other non-state revenue and continue to identify efficiencies to control expenses in the coming years. The District utilizes a financial planning model that incorporates anticipated revenue and expenditure increases to more closely monitor the finances of the District on a long-range basis. The model is intended to show the total amount of reductions necessary for the District to adhere to its fund balance policy, while striving to maintain its commitment to academic excellence and educational opportunity for students.

Net OPEB liability	(6,950,426)
Net pension liability	(72,729,309)

Deferred outflows of resources and deferred inflows of resources are created as a result of differences related to pensions and OPEB that are not recognized in the governmental funds.

Deferred outflows of resources related to pensions	20,570,551
Deferred inflows of resources related to pensions	(18,846,733)
Deferred outflows of resources related to OPEB	556,510
Deferred inflows of resources related to OPEB	(3,401,424)

Delinquent property taxes receivable will be collected in subsequent years, but are not available soon enough to pay for the current period's expenditures and, therefore, are deferred in the funds.

Amounts reported for governmental activities in the Statement of Activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over the estimated useful lives as depreciation expense.

Capital outlays	4,136,891
Depreciation and amortization expense	(12,771,288)
Net effect of lease remeasurement	(53,916)

Compensated absences are recognized as paid in the governmental funds but recognized as the expense is incurred in the Statement of Activities.	(8,371)
---	---------

Governmental funds recognize OPEB contributions as expenditures at the time of payment, whereas the Statement of Activities recognizes when the expenses are incurred.	(353,507)
--	-----------

Principal payments on long-term debt are recognized as expenditures or other financing uses in the governmental funds but has no impact on net position in the Statement of Activities.	30,956,393
---	------------

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due and thus requires use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.	350,052
--	---------

The accreted value of capital appreciation bonds is reported in the statement of net position but does not require the use of current financial resources.	(372,903)
--	-----------

Governmental funds report the effect of bond premiums when the debt is first issued as an other financing source, whereas these amounts are deferred and amortized in the Statement of Activities. Deferred amounts on refundings do not effect current financial resources.	1,916,415
--	-----------

Issuances of long-term debt are recognized as other financing sources in the governmental funds increasing fund balance but having no effect on net position in the Statement of Activities.	(1,663,615)
--	-------------

Governmental funds recognize pension contributions as expenditures at the time of payment whereas the Statement of Activities factors in items related to pensions on a full accrual perspective.	
Pension expense	20,279,742

The self-insured Health and Dental Internal Service Funds are used by management to charge the costs of the self-insured plans. The increase in net position is reported within the governmental activities in the Statement of Activities.	(98,854)

**Independent School District No. 720**  
**Notes to Basic Financial Statements**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The District operates under a school board form of government for the purpose of providing educational services to individuals within the District areas. The governing body consists of a seven member board elected by the voters of the District to serve four-year terms.

The accounting policies of the District conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The following is a summary of the more significant policies.

**A. Reporting Entity**

The basic financial statements present the District and its component units. The District includes all funds, organizations, institutions, agencies, departments, and offices that are not legally separate from such. Component units are legally separate organizations for which the elected officials of the District are financially accountable and are included within the basic financial statements of the District because of the significance of their operational or financial relationships with the District.

The District is considered financially accountable for a component unit if it appoints a voting majority of the organization's governing body and it is able to impose its will on the organization by significantly influencing the programs, projects, activities, or level of services performed or provided by the organization, or there is a potential for the organization to provide specific financial benefits to or impose specific financial burdens on, the District.

As a result of applying the component unit definition criteria above, it has been determined the District has no component units.

The student activity accounts of the District are under board control and are reported in the General Fund.

**B. Basic Financial Statement Information**

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) display information about the reporting government as a whole. These statements include all the financial activities of the District, except for the fiduciary funds. The fiduciary funds are only reported in the Statement of Fiduciary Net Position and the Statement of Changes in Fiduciary Net Position at the fund financial statement level.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items are not included among program revenues; instead, they are properly reported as general revenues.

**Independent School District No. 720**  
**Notes to Basic Financial Statements**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**B. Basic Financial Statement Information (Continued)**

Depreciation expense that can be specifically identified by function is included in the direct expenses of that function. Depreciation expense relating to assets that serve multiple functions is presented as unallocated depreciation in the Statement of Activities. Interest on general long-term debt is considered an indirect expense and is reported separately in the Statement of Activities. The effect of interfund activity has been removed from these statements.

Separate fund financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

The OPEB Trust Fund and the Custodial Fund are presented in the fiduciary fund financial statements. Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, etc.) and cannot be used to address activities or obligations of the District, these funds are not incorporated into the government-wide statements.

**C. Measurement Focus and Basis of Accounting**

The accounting and financial reporting treatment applied is determined by its measurement focus and basis of accounting. The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this basis of accounting transactions are recorded in the following manner.

**1. Revenue Recognition**

Revenue is recognized when it becomes measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Property tax revenue is generally considered as available if collected within 60 days after year-end. State revenue is recognized in the year to which it applies according to *Minnesota Statutes* and accounting principles generally accepted in the United States of America. *Minnesota Statutes* include state aid funding formulas for specific years. Federal revenue is recorded in the year in which the related expenditure is made. Other revenue is considered available if collected within 60 days.

**2. Recording of Expenditures**

Expenditures are generally recorded when a liability is incurred. The exceptions to this general rule are that interest and principal expenditures in the Debt Service Fund, compensated absences, and claims and judgments are recognized when payment is due.

The District applies restricted resources first when an expenditure is incurred for a purpose for which both restricted and unrestricted fund balances are available. Further, the District applies unrestricted funds in this order if various levels of unrestricted fund balances exist: committed, assigned, and unassigned.

**Independent School District No. 720**  
**Notes to Basic Financial Statements**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**C. Measurement Focus and Basis of Accounting (Continued)**

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's internal service funds are charges to customers for services. Operating expenses for internal service funds include the cost of services and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

**Description of Funds:**

**Major Funds:**

General Fund – This fund includes the general operations and pupil transportation activities of the District, as well as the capital related activities such as maintenance of facilities, equipment purchases, health and safety, and disabled accessibility projects. It is the basic operating fund of the District and accounts for all financial resources except those required to be accounted for in another fund.

Debt Service Fund – This fund is used to account for the accumulation of resources for, and payment of, general obligation (G.O.) bond principal, interest, and related costs.

Capital Projects Fund – This fund is used to account for financial resources used for the acquisition or construction of major capital facilities.

**Nonmajor Funds:**

Food Service Special Revenue Fund – This fund is used to account for food service revenues and expenditures. Local, state, and federal revenues are received in this fund to specifically support the Food Service Program.

Community Service Special Revenue Fund – This fund is used to account for services provided to residents in the areas of community education, school readiness, early childhood and family education, or other similar services. The District receipts property tax and local and state revenues in this Fund that were received for these specific purposes.

**Proprietary Funds:**

Health Insurance Internal Service Fund – This fund is used to account for self-insured employee health costs and related stop loss insurance.

Dental Insurance Internal Service Fund – This fund is used to account for self-insured employee dental costs and related stop loss insurance.

**Independent School District No. 720**  
**Notes to Basic Financial Statements**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**C. Measurement Focus and Basis of Accounting (Continued)**

**Description of Funds (Continued):**

**Fiduciary Funds:**

OPEB Trust Fund – This fund is used for reporting resources set aside and held in an irrevocable trust arrangement for OPEB.

Custodial Fund – The Custodial Fund is used to account for resources received and held by the District in a trustee capacity to be used in making scholarship awards.

**D. Cash and Investments**

The District's total deposits and investments are comprised of two major components, each with its own set of legal and contractual provisions as described on the following pages.

The District's cash and cash equivalents are considered to be demand deposits and short term investments with original maturities of three months or less from the date of acquisition.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The Hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments held by investment pools are measured at amortized cost.

**District Funds Other than OPEB Trust Fund**

Cash and investments include balances from all funds that are combined and invested to the extent available in various securities as authorized by state law. Earnings from the pooled investments are allocated to the individual funds based on the average of month-end cash and investment balances. The investments of the capital projects building construction funds are not pooled and earnings on these investments are allocated directly to that fund. The state and local government securities of the debt service fund are not pooled and earnings on these investments are allocated directly to that fund.

Cash and investments at June 30, 2023, were comprised of deposits and shares in the Minnesota School District Liquid Asset Fund (MSDLAF), shares in MNTrust funds, brokered money markets, and state and local government securities. MSDLAf securities are valued at amortized cost, which approximates fair value.

**Independent School District No. 720**  
**Notes to Basic Financial Statements**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**D. Cash and Investments (Continued)**

**District Funds Other than OPEB Trust Fund (Continued)**

*Minnesota Statutes* requires all deposits be protected by federal deposit insurance, corporate surety bonds, or collateral. The market value of collateral pledged must equal 110% of the deposits not covered by Federal Deposit Insurance Corporation (FDIC) insurance or corporate surety bonds. *Minnesota Statutes* authorize the District to invest in obligations of the U.S. Treasury, agencies, and instrumentalities, shares of investment companies whose only investments are in the aforementioned securities, obligations of the State of Minnesota or its municipalities, bankers' acceptances, future contracts, repurchase and reverse repurchase agreements, and commercial paper of the highest quality with a maturity of no longer than 270 days.

In accordance with GASB Statement No. 79, the various MSDLAF and MNTrust securities are valued at amortized cost, which approximates fair value. There are no restrictions or limitations on withdrawals from the MSDLAF Liquid Class or MNTrust investment shares. Investments in the MSDLAF MAX must be deposited for a minimum of 14 calendar days with the exception of direct investments of funds distributed by the State of Minnesota. Withdrawals prior to the 14-day restriction period may be subject to a penalty and there is a 24 hour hold on all requests for redemptions. Seven days' notice of redemption is required for withdrawals of investments in the MNTrust Term Series withdrawn prior to the maturity date of that series. A penalty could be assessed as necessary to recoup the Series for any charges, losses, and other costs attributable to the early redemption.

**OPEB Trust Fund**

These funds represent investments administered by the District's OPEB Fund Investment Managers. As of June 30, 2023, they were comprised of brokered money market and mutual funds. The District's investment policy extends to the OPEB Trust Fund investments.

*Minnesota Statutes* authorize the OPEB Trust Fund to invest in obligations of the U.S. Treasury, agencies and instrumentalities, shares of investment companies whose only investments are in the aforementioned securities, obligations of the State of Minnesota or its municipalities, bankers' acceptances, future contracts, corporate bonds, common stock and foreign stock of the highest quality, mutual funds, repurchase and reverse agreements, commercial paper of the highest quality with a maturity no longer than 270 days and in the State Board of Investments. Investments are stated at fair value.

**E. Property Tax Receivable**

Current property taxes receivable are recorded for taxes certified the previous December and collectible in the current calendar year, which have not been received by the District. Delinquent property taxes receivable represents uncollected taxes for the past six years and are deferred and included in the deferred inflows of resources section of the fund financial statements as unavailable revenue because they are not available to finance the operations of the District in the current year.

**Independent School District No. 720**  
**Notes to Basic Financial Statements**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**F. Property Taxes Levied for Subsequent Year's Expenditures**

Property taxes levied for subsequent year's expenditures consist principally of property taxes levied in the current year which will be collected and recognized as revenue in the District's following year to properly match those revenues with the budgeted expenditures for which they were levied. This amount is equal to the amount levied by the School Board in December 2022, less various components and their related adjustments as mandated by the state. These portions of that levy were recognized as revenue in fiscal year 2023. The remaining portion of the levy will be recognized when measurable and available.

**G. Inventories**

Inventories of commodities donated directly by the U.S. Department of Agriculture are recorded at market value. Other inventories are stated at cost as determined on a first-in, first-out (FIFO) basis. Inventory is recorded as expenditures when consumed rather than when purchased.

**H. Prepaid Items**

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Prepaid items are recorded as an expenditure at the time of consumption.

**I. Property Taxes**

The District levies its property tax during the month of December. December 28 is the last day the District can certify a tax levy to the County Auditor. Such taxes become a lien on January 1. The property tax is recorded as revenue when it becomes measurable and available. Scott County is the collecting agency for the levy and remits the collections to the District three times a year. The tax levy notice is mailed in March with the first half of the payment due on May 15 and the second half due on October 15. Delinquent collections for November and December are received the following January.

A portion of property taxes levied is paid by the State of Minnesota through various tax credits, which are included in revenue from state sources in the basic financial statements.

**J. Capital Assets**

Capital assets are recorded in the government-wide financial statements but are not reported in the fund financial statements.

Capital assets are defined by the District as assets with an initial individual cost of more than \$5,000 with an estimated useful life in excess of five years, including all computer equipment regardless of the value. Such assets are capitalized at historical cost, or estimated historical cost for assets where actual historical cost is not available. Donated assets are recorded as capital assets at its acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend the assets' lives are not capitalized.

**Independent School District No. 720**  
**Notes to Basic Financial Statements**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**J. Capital Assets (Continued)**

Capital assets are depreciated using the straight-line method over their estimated useful lives. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public school purpose by the District, no salvage value is taken into consideration for depreciation purpose. Useful lives vary from 10 to 60 years for site improvements and buildings and 5 to 30 years for furniture and equipment.

Capital assets not being depreciated include land and construction in progress. The District does not possess any material amounts of infrastructure capital assets, such as sidewalks and parking lots. Such items are considered to be part of the cost of buildings or other improvable property.

**K. Right-of-Use Lease Assets/Lease Liabilities/Subscription Asset and Liabilities**

The District recorded right-to-use lease assets as a result of implementing GASB Statement No. 87, *Leases* and subscription assets as a result of implementing GASB Statement No 96, *Subscription-Based Information Technology Arrangements* in accordance with the provisions of the Statements. The right-to-use assets and subscription assets are amortized on a straight-line basis over the life of the related liability.

Key estimates and judgments related to leases include (1) the discount rate, (2) term, and (3) payments.

The District uses the interest rate charged by the lessor or vendor as the discount rate. When the interest rate charged by the lessor is not provided, the District determines its estimated direct borrowing rate. The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase options the District is reasonably certain to exercise. The subscription term includes the noncancellable period of the right to use the underlying assets. Payments included in the measurement of the subscription liability are composed of fixed payments and purchase options the District is reasonably certain to exercise.

The District monitors changes in circumstances that would require re-measurement and will remeasure the affected assets and liabilities if certain changes occur.

**L. Deferred Outflows/Inflows of Resources**

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until that time. The District has two items that qualify for reporting in this category. A deferred outflow of resources related to pensions is recorded for various estimate differences that will be amortized and recognized over future years and is reported in the government-wide Statement of Net Position. A deferred outflow of resources related to OPEB activity is recorded in the government-wide Statement of Net Position for various estimate differences that will be amortized and recognized over future years.

**Independent School District No. 720**  
**Notes to Basic Financial Statements**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**L. Deferred Outflows/Inflows of Resources (Continued)**

In addition to liabilities, the Statement of Net Position and fund financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has five types of items which qualify for reporting in this category. The first item, unavailable revenue from property taxes, arises under a modified accrual basis of accounting and is reported only in the Governmental Funds Balance Sheet. Delinquent property taxes not collected within 60 days of year-end are deferred and recognized as an inflow of resources in the governmental funds in the period the amounts become available. The second item is property taxes levied for subsequent years, which represent property taxes received or reported as a receivable before the period for which the taxes are levied and is reported as a deferred inflow of resources in both the government-wide Statement of Net Position and the Governmental Funds Balance Sheet. Property taxes levied for subsequent years are deferred and recognized as an inflow of resources in the government-wide financial statements in the year for which they are levied and in the governmental fund financial statements during the year for which they are levied, if available. The third item is deferred inflows related to pensions and is recorded on the government-wide Statement of Net Position for various estimate differences that will be amortized and recognized over future years. The fourth item is a deferred charge on refunding, which results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The fifth item is a deferred inflows of resources related to OPEB and is recorded in the government-wide Statement of Net Position for various estimate differences that will be amortized and recognized over future years.

**M. Long-Term Obligations**

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**N. Compensated Absences**

Under the terms of collectively bargained contracts, eligible employees accrue vacation and sick leave at varying rates as specified by contract, portions of which may be carried over to future years. Employees are reimbursed for any unused, accrued vacation upon termination. Compensated absence benefits are paid by the General Fund and Special Revenue Funds. Unused vacation is accrued as it is earned in the government-wide financial statements.

**Independent School District No. 720**  
**Notes to Basic Financial Statements**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**O. Post Employment Severance and Health Benefits**

Severance and health benefits consist of lump sum retirement payments and post employment health care benefits.

Under the terms of certain collectively bargained employment contracts, the District is required to contribute health insurance premiums or to a health savings account for certain retired employees. The amount to be paid is limited as specified by contract.

Additional details for post employment health benefits can be found in Note 7.

**P. Pensions**

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and Teachers Retirement Association (TRA) and additions to/deductions from PERA's and TRA's fiduciary net position have been determined on the same basis as they are reported by PERA and TRA. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

TRA has a special funding situation created by direct aid contributions made by the State of Minnesota, City of Minneapolis, and Minneapolis School District. The direct aid is a result of the merger of the Minneapolis Teachers Retirement Fund Association into TRA in 2006. A second direct aid source is from the State of Minnesota for the merger of the Duluth Teacher's Retirement Fund Association (DTRFA) in 2015.

**Q. Postemployment Benefits Other than Pensions (OPEB)**

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District and additions to/deductions from the District's fiduciary net position have been determined on the same basis as they are reported by the District. For this purpose, the District recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are report at cost.

**R. Risk Management**

The District is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omissions; natural disasters; and injuries to employees for which the District carries commercial insurance. Settled claims have not exceeded this commercial coverage in any of the past three years. There were no significant reductions in the District's insurance coverage during the year ended June 30, 2023.

**Independent School District No. 720**  
**Notes to Basic Financial Statements**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**S. Fund Equity**

In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the District is bound to honor constraints on the specific purpose for which amounts in those funds can be spent.

- **Nonspendable Fund Balances** – These are amounts that cannot be spent because they are not in spendable form as they are legally or contractually required to be maintained intact and include amounts set aside for inventory and prepaid items.
- **Restricted Fund Balances** – These amounts are subject to externally enforceable legal restrictions by either a) creditors, grantors, contributors, or laws or regulations of other governments or b) imposed by law through enabling legislation.
- **Committed Fund Balances** – These amounts are comprised of unrestricted funds used for specific purposes pursuant to constraints imposed by formal action of the School Board and that remain binding unless removed by the School Board by subsequent formal action. The formal action to commit a fund balance must occur prior to year-end; however, the specific amounts actually committed can be determined in the subsequent year.
- **Assigned Fund Balances** – The School Board may vote to assign fund balances but also delegates the power to assign fund balances to the Director of Finance. Amounts that are constrained by the District's intent to be used for specific purposes but are neither restricted nor committed are classified as assigned fund balances.
- **Unassigned Fund Balances** – These are amounts that have not been restricted, committed, or assigned to a specific purpose in the General Fund. Other funds may also report a negative unassigned fund balance if the total nonspendable, restricted, and committed fund balances exceed the total net resources of that fund.

The District's fund balance policy includes a target unassigned General Fund balance goal of between 8% and 12% of the annual budget.

**T. Net Position**

Net position represents the difference between assets and deferred outflows of resources; and liabilities and deferred inflows of resources in the government-wide financial statements. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets. Net position is reported as restricted in the government-wide financial statement when there are limitations on their use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**U. Use of Estimates**

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements. Estimates also affect the reported amounts of revenue and expenditures/expense during the reporting period. Actual results could differ from those estimates.

**V. Budgetary Information**

The District follows these procedures in establishing the budgetary data reflected in the basic financial statements:

1. Prior to July 1, the Director of Finance submits to the School Board a proposed operating budget for the year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them.
2. The Director of Finance is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the School Board.
3. Formal budgetary integration is employed as a management control device during the year for the General, Food Service, Community Service, Capital Projects, and Debt Service Funds.
4. Budgets for the General, Food Service, Community Service, Capital Projects, and Debt Service Funds are adopted on a basis consistent with accounting principles generally accepted in the United States of America.
5. Budgets are as originally adopted or as amended by the School Board. Budgeted expenditure appropriations lapse at year-end.

**NOTE 2 – DEPOSITS AND INVESTMENTS**

**A. Deposits**

**District Funds and OPEB Trust Fund**

In accordance with applicable *Minnesota Statutes*, the District maintains deposits at depository banks authorized by the School Board.

**Custodial Credit Risk – Deposits:** For a deposit, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District has a deposit policy that requires the District's deposits be collateralized as required by *Minnesota Statutes* for an amount exceeding federal deposit coverage. *Minnesota Statutes* require all deposits be protected by federal depository insurance, corporate surety bonds or collateral. The market value of collateral pledged must equal 110% of the deposits not covered by Federal Deposit Insurance Corporation (FDIC) insurance or corporate surety bonds. As of June 30, 2023, the District's bank balances were not exposed to custodial credit risk because they were insured by FDIC insurance or fully collateralized.

Total investments	<u>\$ 109,969,946</u>	<u>\$ 109,969,946</u>	

**Interest Rate Risk:** This is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates. The District's investment policy states the portfolio shall be managed in a manner to attain a market rate of return through budgetary and economic cycles while preserving and protecting capital in the investment portfolio and taking into account constraints on risk and cash flow requirements.

**Credit Risk:** This is the risk that an issuer or other counterparty to an investment will not fulfill its obligation to the holder of the investment. *Minnesota Statutes* §§ 118A.04 and 118A.05 limit investments to those in the top two ratings issued by nationally recognized statistical rating organizations. The District's investment policy refers to *Minnesota Statutes* §§ 118A.01 through 118A.06. The District will minimize credit risk by limiting investments to those allowed by statutory constraints.

**B. Investments (Continued)**

**District Funds Other than OPEB Trust Fund (Continued)**

**Concentration of Credit Risk:** This is the risk of loss attributed to the magnitude of an investment in a single issuer. The District's investment policy places no limit on the amount the District may invest in any one issuer, though it does state the District shall diversify its investments to avoid incurring unreasonable risks inherent in overinvesting in specific instruments, individual financial institutions, or maturities. The District's investments were not exposed to concentration of credit risk at June 30, 2023, as no investments represented more than 5% of total investments.

**Custodial Credit Risk – Investments:** For an investment, this is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's investment policy states all investment securities purchased by the District shall be held in third-party safekeeping by an institution designated as custodial agent. The institution or dealer shall issue a safekeeping receipt to the school district listing pertinent investment information.

The District has the following recurring fair value measurements as of June 30, 2023:

- \$59,033,420 are valued using a matrix pricing model (Level 2 inputs).
- \$50,936,526 are not valued under Level 1 or 2, as they are not applicable to those fair value measurements.

**OPEB Trust Fund**

As of June 30, 2023, the District's OPEB Trust Fund had the following investments:

<u>Investment Type</u>	<u>Fair Value</u>	<u>S&amp;P Rating</u>
Brokered money markets	\$ 95,076	N/A
Mutual funds - fixed income	1,716,660	N/A

**A. Components of Long-Term Liabilities (Continued)**

The District issued the \$76,470,000 School Building Refunding Bonds, Series 2021A for the crossover advance refunding of the February 1, 2024 through the February 1, 2026, maturities of the School Building Refunding Bonds, Series 2013A, the February 1, 2025 through the February 1, 2034, maturities of the School Building Bonds, Series 2015A, and the February 1, 2035 through the February 1, 2036, maturities of the School Building Bonds, Series 2015B. The proceeds of the 2021A issuance were placed in an escrow account. The refunding was undertaken to reduce total debt service payments by \$5,438,442 and resulted in a net present value benefit of \$4,781,669.

The District entered into various financed purchase agreements for the purchase of technology equipment. The District entered into various lease agreements for the leasing of building space. The District entered into a subscription-based information technology arrangement for the use of learning software.

**A. Fund Balances (Continued)**

Restricted for Student Activities – This balance represents available resources to be used for the extracurricular activity funds raised by the students.

Restricted for Staff Development – This balance represents unspent staff development revenues set aside from general education revenue that were restricted/reserved for staff development related to Finance Code 316. Expenditures for staff development must equal at least 2% of the basic general education revenue, unless legal stipulations are met (*Minnesota Statutes* § 122A.61, subdivision 1).

Restricted for Capital Projects Levy – This balance represents available resources from the capital projects levy to be used for building construction and other projects under *Minnesota Statutes* § 126C.10, subd. 14. All interest income attributable to the capital projects levy must be credited to this account.

Restricted for Operating Capital – This balance represents available resources in the General Fund to be used to purchase equipment and facilities.

Restricted for Learning and Development – Learning and development is funded by general education revenue. This reserve represents available general education revenues for learning and development, which is mainly for reducing the pupil to staff ratio.

Restricted for Safe Schools Levy – The unspent resources available from the safe schools levy must be restricted in this account for future use.

Restricted for Long-Term Facilities Maintenance (LTFM) – This balance represents available resources to be used for LTFM projects in accordance with the 10-year plan (*Minnesota Statutes* § 123B.595, subd. 12).

Restricted for Medical Assistance – This balance represents available resources to be used for medical assistance expenditures (*Minnesota Statutes* § 125A.21, subd. 3).

Restricted for Early Childhood and Family Education – This balance represents the resources available to provide for services for early childhood and family education programming.

Restricted for Community Education – This balance represents the resources available to provide programming such as: nonvocational, recreational and leisure time activities, programs for adults with disabilities, noncredit summer programs, adult basic education programs, youth development and youth service programming, and extended day programs. The balance as of June 30, 2023, is a deficit (negative) amount, which is presented within unassigned fund balance for the purposes of reporting in accordance with generally accepted accounting principles.

Restricted for School Readiness – This balance represents the resources available to provide for services for school readiness programs (*Minnesota Statutes* § 124D.16). The balance as of June 30, 2023, is a deficit (negative) amount, which is presented within unassigned fund balance for the purposes of reporting in accordance with generally accepted accounting principles.

Restricted for Debt Service – This balance represents the balance of the Debt Service Fund available for future debt principal and interest payments.

Restricted for Capital Projects – This balance represents the balance of the Capital Projects Fund available for future capital purchases.

Restricted for Food Service – This balance represents the balance of the Food Service Fund that is available for future food service expenditures.

Assigned for Building Activities – This balance represents resources set aside for future school district programming in accordance with the District's long range financial plan.

Assigned for District Programming – This balance represents resources set aside for future educational programming.

Assigned for One-to-One Insurance – This balance represents resources set aside for repairs/replacement of one-to-one devices.

**B. Net Position**

Restricted net position is comprised of the total positive General Fund restricted fund balance plus the positive fund balances of the Food Service, Community Service, Debt Service, and Capital Projects Funds.

**NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE**

The District participates in various pension plans. Total pension expense for the year ended June 30, 2023, was (\$13,986,799). The components of pension expense are noted in the following plan summaries.

The General Fund typically liquidates the liability related to the pensions.

**Teachers' Retirement Association**

**A. Plan Description**

The Teachers Retirement Association (TRA) is an administrator of a multiple employer, cost-sharing, defined benefit retirement fund. TRA administers a Basic Plan (without Social Security coverage) and a Coordinated Plan (with Social Security coverage) in accordance with *Minnesota Statutes*, Chapters 354 and 356. TRA is a separate statutory entity and administered by a Board of Trustees. The Board consists of four active members, one retired member, and three statutory officials.

**Independent School District No. 720**  
**Notes to Basic Financial Statements**

**NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)**

**Teachers' Retirement Association (Continued)**

**A. Plan Description (Continued)**

Educators employed in Minnesota's public elementary and secondary schools, charter schools, and certain other TRA-covered educational institutions maintained by the state are required to be TRA members (except those teachers employed by St. Paul Schools or Minnesota State Colleges and Universities). Educators first hired by Minnesota State may elect either TRA coverage or coverage through the Defined Contribution Plan (DCR) administered by Minnesota State.

**B. Benefits Provided**

TRA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits are established by *Minnesota Statute* and vest after three years of service credit. The defined retirement benefits are based on a member's highest average salary for any five consecutive years of allowable service, age and a formula multiplier based on years of credit at termination of service.

Two methods are used to compute benefits for TRA's Coordinated and Basic Plan members. Members first employed before July 1, 1989, receive the greater of the Tier I or Tier II benefits as described.

*Tier I Benefits*

Tier I	Step Rate Formula	Percentage
Basic	First ten years of service	2.2% per year
	All years after	2.7% per year
Coordinated	First ten years if service years are up to July 1, 2006	1.2% per year
	First ten years if service years are July 1, 2006, or after	1.4% per year
	All other years of service if service years are up to July 1, 2006	1.7% per year
	All other years of service if service years are July 1, 2006, or after	1.9% per year

With these provisions:

- Normal retirement age is 65 with less than 30 years of allowable service and age 62 with 30 or more years of allowable service.
- 3% per year early retirement reduction factor for all years under normal retirement age.
- Unreduced benefits for early retirement under a Rule of 90 (age plus allowable service equals 90 or more).

**Notes to Basic Financial Statements**

**NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)**

**Teachers' Retirement Association (Continued)**

**B. Benefits Provided (Continued)**

*Tier II Benefits*

For years of service prior to July 1, 2006, a level formula of 1.7% per year for coordinated members and 2.7% per year for basic members is applied. For years of service July 1, 2006, and after, a level formula of 1.9% per year for Coordinated members and 2.7% for Basic members applies. Beginning July 1, 2015, the early retirement reduction factors are based on rates established under *Minnesota Statute*. Smaller reductions, more favorable to the member, will be applied to individuals who reach age 62 and have 30 years or more of service credit.

Members first employed after June 30, 1989, receive only the Tier II calculation with a normal retirement age that is their retirement age for full Social Security retirement benefits, but not to exceed age 66.

Six different types of annuities are available to members upon retirement. The No Refund Life Plan is a lifetime annuity that ceases upon the death of the retiree – no survivor annuity is payable. A retiring member may also choose to provide survivor benefits to a designated beneficiary(ies) by selecting one of the five plans that have survivorship features. Vested members may also leave their contributions in the TRA Fund upon termination of service in order to qualify for a deferred annuity at retirement age. Any member terminating service is eligible for a refund of their employee contributions plus interest.

The benefit provisions stated apply to active plan participants. Vested, terminated employees who are entitled to benefits but not yet receiving them are bound by the plan provisions in effect at the time they last terminated their public service.

**C. Contribution Rate**

Per *Minnesota Statutes*, Chapter 354 sets the contribution rates for employees and employers. Rates for each fiscal year ended June 30, 2021, June 30, 2022, and June 30, 2023, were:

	June 30, 2021		June 30, 2022		June 30, 2023	
	Employee	Employer	Employee	Employer	Employee	Employer
Basic	11.00%	12.13%	11.00%	12.34%	11.00%	12.55%
Coordinated	7.50%	8.13%	7.50%	8.34%	7.50%	8.55%

**D. Actuarial Assumptions**

The total pension liability in the June 30, 2022, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement.

Key Methods and Assumptions Used in Valuation of Total Pension Liability

---

**Actuarial Information**

Valuation date	July 1, 2022
Measurement date	June 30, 2022
Experience study	June 28, 2019 (demographic and economic assumptions)
Actuarial cost method	Entry Age Normal
Actuarial assumptions	
Investment rate of return	7.00%
Price inflation	2.50%
Wage growth rate	2.85% before July 1, 2028, and 3.25% after June 30, 2028.
Projected salary increase	2.85% to 8.85% before July 1, 2028, and 3.25% to 9.25% after June 30, 2028.
Cost of living adjustment	1.0% for January 2019 through January 2023, then increasing by 0.1% each year up to 1.5% annually.

**Mortality Assumptions**

Pre-retirement	RP 2014 white collar employee table, male rates set back five years and female rates set back seven years. Generational projection uses the MP 2015 scale.
Post-retirement	RP 2014 white collar annuitant table, male rates set back three years and female rates set back three years, with further adjustments of the rates. Generational projections uses the MP 2015 scale.
Post-disability	RP 2014 disabled retiree mortality table, without adjustment.

**Notes to Basic Financial Statements**

**NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)**

**Teachers' Retirement Association (Continued)**

**D. Actuarial Assumptions (Continued)**

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic equity	33.5 %	5.10 %
International stocks	16.5	5.30
Private markets	25.0	5.90
Fixed income	25.0	0.75
Total	100 %	

The TRA actuary has determined the average of the expected remaining service lives of all members for fiscal year 2023 is six years. The "Difference Between Expected and Actual Experience," "Changes of Assumptions," and "Changes in Proportion" use the amortization period of six years in the schedule presented. The amortization period for "Net Difference between Projected and Actual Investment Earnings on Pension Plan Investments" is five years as required by GASB 68.

Changes in actuarial assumptions since the 2021 valuation:

- None

**E. Discount Rate**

The discount rate used to measure the total pension liability was 7.0%. There was no change in the discount rate since the prior measurement date. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the fiscal year 2022 contribution rate, contributions from school districts will be made at contractually required rates (actuarially determined), and contributions from the state will be made at current statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was not projected to be depleted and, as a result, the Municipal Bond Index Rate was not used in the determination of the Single Equivalent Interest Rate (SEIR).

**Independent School District No. 720**  
**Notes to Basic Financial Statements**

**NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)**

**Teachers' Retirement Association (Continued)**

**F. Net Pension Liability**

On June 30, 2023, the District reported a liability of \$60,168,137 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to TRA in relation to total system contributions including direct aid from the State of Minnesota, City of Minneapolis, and Minneapolis School District. District proportionate share was 0.7514% at the end of the measurement period and 0.7987% for the beginning of the year.

The pension liability amount reflected a reduction due to direct aid provided to TRA. The amount recognized by the District as its proportionate share of the net pension liability, the direct aid and total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of net pension liability	\$ 60,168,137
State's proportionate share of the net pension liability associated with the district	4,461,905

For the year ended June 30, 2023, the District recognized pension expense of (\$15,319,548). Included in this amount, the District recognized \$613,526 as pension expense for the support provided by direct aid.

On June 30, 2023, the District had deferred resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Experience	\$ 918,230	\$ 564,354
Net Difference Between Projected and Actual		
Earnings on Plan Investments	389,649	-
Changes in Assumptions	10,245,392	13,907,114
Changes in Proportion	216,718	3,522,309
District's Contributions to TRA Subsequent to the Measurement Date	4,658,374	-
Total	<u>\$ 16,428,363</u>	<u>\$ 17,993,777</u>

The \$4,658,374 reported as deferred outflows of resources related to pensions resulting from District contributions to TRA subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2024.

**Notes to Basic Financial Statements**

**NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)**

**Teachers' Retirement Association (Continued)**

**F. Net Pension Liability (Continued)**

Other amounts reported as deferred outflows of resources and (deferred inflows of resources) will be recognized in pension expense as follows:

Year Ended June 30,	Pension Expense
2024	\$ (14,202,856)
2025	744,510
2026	(181,632)
2027	7,718,765
2028	(302,575)
Total	<u><u>\$ (6,223,788)</u></u>

**G. Pension Liability Sensitivity**

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.0% as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percent lower (6.0%) and 1 percent higher (8.0%) than the current rate.

District proportionate share of NPL		
1% Decrease in Discount Rate (6.0%)	Current in Discount Rate (7.0%)	1% Increase in Discount Rate (8.0%)
\$ 94,851,792	\$ 60,168,137	\$ 31,738,355

The District's proportion of the net pension liability was based on the employer contributions to TRA in relation to TRA's total employer contributions including direct aid contributions from the State of Minnesota, City of Minneapolis, and Minneapolis School District.

**H. Pension Plan Fiduciary Net Position**

Detailed information about the plan's fiduciary net position is available in a separately-issued TRA financial report. That can be obtained at [www.minnesotatra.org](http://www.minnesotatra.org), or by writing to TRA at 60 Empire Drive, Suite 400, St. Paul, MN, 55103-4000, or by calling (651) 296-2409 or (800) 657-3669.

**NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)**

**Public Employees' Retirement Association**

**A. Plan Description**

The District participates in the following cost-sharing multiple-employer defined benefit pension plan administered by PERA. PERA's defined benefit pension plan is established and administered in accordance with *Minnesota Statutes*, Chapters 353 and 356. PERA's defined benefit pension plan is a tax qualified plan under Section 401(a) of the Internal Revenue Code.

**General Employees Retirement Plan**

The General Employees Retirement Plan covers certain full time and part time employees of the District. General Employees Plan members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

**B. Benefits Provided**

PERA provides retirement, disability, and death benefits. Benefit provisions are established by state statute and can only be modified by the state Legislature. Vested, terminated employees who are entitled to benefits but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

**General Employees Plan Benefits**

General Employees Plan benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated Plan members. Members hired prior to July 1, 1989, receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1 the annuity accrual rate for a Coordinated Plan member is 1.2% for each of the first 10 years of service and 1.7% for each additional year. Under Method 2, the accrual rate for Coordinated members is 1.7% for all years of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66.

Benefit increases are provided to benefit recipients each January. The postretirement increase is equal to 50% of the cost-of-living adjustment (COLA) announced by the SSA, with a minimum increase of at least 1.0% and a maximum of 1.5%. Recipients that have been receiving the annuity or benefit for at least a full year as of the June 30 before the effective date of the increase will receive the full increase. Recipients receiving the annuity or benefit for at least one month but less than a full year as of the June 30 before the effective date of the increase will receive a reduced prorated increase. For members retiring on January 1, 2024, or later, the increase will be delayed until normal retirement age (age 65 if hired prior to July 1, 1989, or age 66 for individuals hired on or after July 1, 1989). Members retiring under Rule of 90 are exempt from the delay to normal retirement.

**C. Contributions**

*Minnesota Statutes* Chapter 353 set the rates for employer and employee contributions. Contribution rates can only be modified by the state Legislature.

General Employees Fund Contributions

Coordinated Plan members were required to contribute 6.5% of their annual covered salary in fiscal year 2023 and the District was required to contribute 7.5% for Coordinated Plan members. The District's contributions to the General Employees Fund for the year ended June 30, 2023, were \$966,000. The District's contributions were equal to the required contributions as set by state statute.

**D. Pension Costs**

General Employees Fund Pension Costs

At June 30, 2023, the District reported a liability of \$12,561,172 for its proportionate share of the General Employees Fund's net pension liability. The District's net pension liability reflected a reduction due to the State of Minnesota's contribution of \$16 million. The State of Minnesota is considered a non-employer contributing entity and the State's contribution meets the definition of a special funding situation. The State of Minnesota's proportionate share of the net pension liability associated with the District totaled \$368,369.

The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportionate share of the net pension liability was based on the District's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2021, through June 30, 2022, relative to the total employer contributions received from all of PERA's participating employers. The District's proportionate share was 0.1586% at the end of the measurement period and 0.1688% for the beginning of the period.

Total	<u><u>\$ 12,929,541</u></u>

For the year ended June 30, 2023, the District recognized pension expense of \$1,332,749 for its proportionate share of the General Employees Plan's pension expense. Included in this amount, the District recognized \$55,043 as pension expense (and grant revenue) for its proportionate share of the State of Minnesota's contribution of \$16 million to the General Employees Fund.

**E. Long-Term Expected Return on Investment**

The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Final Target Allocation	Long-Term Expected Real Rate of Return
Domestic stocks	33.5 %	5.10 %
International stocks	16.5	5.30
Fixed income	25.0	0.75
Private markets	25.0	5.90
Total	100.0 %	

**F. Actuarial Methods and Assumptions**

The total pension liability in the June 30, 2022, actuarial valuation was determined using an individual entry-age normal actuarial cost method. The long-term rate of return on pension plan investments used in the determination of the total liability is 6.5%. This assumption is based on a review of inflation and investments return assumptions from a number of national investment consulting firms. The review provided a range of return investment return rates deemed to be reasonable by the actuary. An investment return of 6.5% was deemed to be within that range of reasonableness for financial reporting purposes.

Inflation is assumed to be 2.25% for the General Employees Plan. Benefit increases after retirement are assumed to be 1.25% for the General Employees.

Salary growth assumptions in the General Employees Plan range in annual increments from 10.25% after one year of service to 3.0% after 27 years of service.

Mortality rates for the General Employees Plan are based on the Pub-2010 General Employee Mortality Table. The table is adjusted slightly to fit PERA's experience.

Actuarial assumptions for the General Employees Plan are reviewed every four years. The most recent four-year experience study for the General Employees Plan was completed in 2019. The assumption changes were adopted by the Board and became effective with the July 1, 2020, actuarial valuation.

**Public Employees' Retirement Association (Continued)**

**F. Actuarial Methods and Assumptions (Continued)**

The following changes in actuarial assumptions and plan provisions occurred in 2022:

Changes in Actuarial Assumptions

- The mortality improvement scale was changed from scale MP-2020 to scale MP-2021.

Changes in Plan Provisions

- There were no changes in plan provisions since the previous valuation.

**G. Discount Rate**

The discount rate used to measure the total pension liability in 2022 was 6.5%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in *Minnesota Statutes*. Based on these assumptions, the fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**H. Pension Liability Sensitivity**

The following table presents the District's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage point higher than the current discount rate:

	1% Decrease in Discount Rate (5.5%)	Current Discount Rate (6.5%)	1% Increase in Discount Rate (7.5%)
District's Proportionate share of the PERA net pension liability	\$19,841,030	\$ 12,561,172	\$ 6,590,566

**I. Pension Plan Fiduciary Net Position**

Detailed information about the General Employees Fund's fiduciary net position is available in a separately-issued PERA financial report that includes the basic financial statements and required supplementary information. That report may be obtained on the Internet at [www.mnpera.org](http://www.mnpera.org).

**NOTE 7 – POST EMPLOYMENT HEALTH CARE PLAN**

**A. Plan Description**

The District provides post-employment insurance benefits to certain eligible employees through its Other Post Employment Benefits (OPEB) Plan, a single-employer defined benefit plan administered by the District. All post employment benefits are based on contractual agreements with employee groups. Eligibility for these benefits is based on years of service and/or minimum age requirements.

**Independent School District No. 720**  
**Notes to Basic Financial Statements**

**NOTE 7 – POST EMPLOYMENT HEALTH CARE PLAN**

**A. Plan Description (Continued)**

The OPEB plan is included in the report of the District. A separate financial report is not issued.

**B. Benefits Provided**

All retirees of the District have the option under state law to continue their medical insurance coverage through the District from the time of retirement until the employee reaches the age of eligibility for Medicare. For members of certain employee groups, the District pays for all or part of the eligible retiree's premiums for medical insurance from the time of retirement until the employee reaches the age of eligibility for Medicare or a limited number of years depending on the contractual language. Benefits paid by the District differ by bargaining unit and date of hire, with some contracts specifying a certain dollar amount and some covering premium costs as defined within each collective bargaining agreement. Retirees not eligible for these District-paid premium benefits must pay the full District premium rate for their coverage.

**C. Members**

As of the July 1, 2022, valuation date, the following were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	25
Active employees	986
	<hr/>
Total	1,011
	<hr/> <hr/>

**D. Contributions**

Retirees and their families have access to the health care plan at the same premium rate as District employees. This results in the retirees receiving an implicit rate subsidy. The premiums are based on the contract terms. The required contributions are on projected pay-as-you-go financing requirements. For fiscal year 2023, the District contributed \$339,394 to the plan.

**E. Actuarial Assumptions**

The total OPEB liability was determined by an actuarial valuation as of July 1, 2022, with a measurement date of June 30, 2023, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Key Methods and Assumptions Used in Valuation of Total OPEB Liability	
Discount rate	4.00%
Investment rate of return	5.00%, net of investment expense
Salary increases	Service graded
Inflation	2.50%
Healthcare cost trend increases	6.5% in 2022 decreasing to 5.00% over 6 years, then to 4.00% over the next 48 years
Mortality Assumption	Pub-2010 Public Retirement Plans Headcount-Weighted Mortality Tables with MP-2021 Generational Improvement Scale

**Independent School District No. 720**  
**Notes to Basic Financial Statements**

**NOTE 7 – POST EMPLOYMENT HEALTH CARE PLAN (CONTINUED)**

**E. Actuarial Assumptions (Continued)**

The following are changes to actuarial assumptions since the prior valuation:

- The health care trend rates were changed to better anticipate short-term and long-term medical increases.
- The mortality tables were updated from the Pub-2010 Retirement Plans Headcount-Weighted Mortality Tables with MP-2019 Generational Improvement Scale to the Pub-2010 Retirement Plans Headcount-Weighted Mortality Tables with MP-2021 General Improvement Scale.
- The salary increase rates for non-teachers were updated to reflect the latest experience study.
- The withdrawal rates were updated to reflect the latest experience study.
- The long-term expected investment return was changed from 4.6% to 5.0%
- The discount rate was changed from 3.9% to 4.0%

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the table below:

Asset Class	Target	Long-Term Expected Real Rate of Return
Domestic equity	49.00 %	5.00 %
Fixed income	43.00	5.00
International equity	7.00	5.00
Cash	1.00	4.00
Total	100.00 %	5.00 %

The details of the investments and the investment policy are described in Note 2. of the District's basic financial statements. For the year ended June 30, 2023, the annual money-weighted rate of return on investments, net of investment expense, was 9.6%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

**Notes to Basic Financial Statements**

**NOTE 7 – POST EMPLOYMENT HEALTH CARE PLAN (CONTINUED)**

**F. Discount Rate**

The discount rate used to measure the total OPEB liability was 4.0%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

**TRA Retirement Fund**

**2022 Changes**

Changes in Actuarial Assumptions

- None

**2021 Changes**

Changes in Actuarial Assumptions

- The investment return assumption was changed from 7.5% to 7.0%.

**2020 Changes**

Changes in Actuarial Assumptions

- Assumed termination rates were changed to more closely reflect actual experience.
- The pre-retirement mortality assumption was changed to the RP 2014 white collar employee table, male rates set back five years and female rates set back seven years. Generational projection uses the MP 2015 scale.
- Assumed form of annuity election proportions were changed to more closely reflect actual experience for female retirees.

**2019 Changes**

Changes in Actuarial Assumptions

- None

**2018 Changes**

Changes in Actuarial Assumptions

- The discount rate was increased to 7.5% from 5.12%.
- The cost of living adjustment (COLA) was reduced from 2.0% each January 1 to 1.0%, effective January 1, 2019. Beginning January 1, 2024, the COLA will increase 0.1% each year until reaching the ultimate rate of 1.5% on January 1, 2028.
- Beginning July 1, 2024, eligibility for the first COLA changes to normal retirement age (age 65 to 66, depending on date of birth). However, members who retire under Rule of 90 and members who are at least age 62 with 30 years of service credit are exempt.
- The COLA trigger provision, which would have increased the COLA to 2.5% if the funded ratio was at least 90% for two consecutive years, was eliminated.
- Augmentation in the early retirement reduction factors is phased out over a five-year period beginning July 1, 2019, and ending July 1, 2024 (this reduces early retirement benefits). Members who retire and are at least age 62 with 30 years of service are exempt.
- Augmentation on deferred benefits will be reduced to 0.0% beginning July 1, 2019. Interest payable on refunds to members was reduced from 4.0% to 3.0%, effective July 1, 2018. Interest due on payments and purchases from members, employers was reduced from 8.5% to 7.5%, effective July 1, 2018.
- The employer contribution rate is increased each July 1 over the next six years (7.71% in 2018, 7.92% in 2019, 8.13% in 2020, 8.34% in 2021, 8.55% in 2022, and 8.75% in 2023). In addition, the employee contribution rate will increase from 7.50% to 7.75% on July 1, 2023. The state provides funding for the higher employer contribution rate through an adjustment in the school aid formula.

**TRA Retirement Fund (Continued)**

**2017 Changes**

Changes in Actuarial Assumptions

- The discount rate was increased to 5.12% from 4.66%.
- The cost of living adjustment (COLA) was assumed to increase from 2.0% annually to 2.5% annually on July 1, 2045.
- The COLA was not assumed to increase to 2.5% but remain at 2.0% for all future years.
- Adjustments were made to the combined service annuity loads. The active load was reduced from 1.4% to 0.0%, the vested inactive load increased from 4.0% to 7.0% and the non-vested inactive load increased from 4.0% to 9.0%.
- The investment return assumption was changed from 8.0% to 7.5%.
- The price inflation assumption was lowered from 2.75% to 2.5%.
- The payroll growth assumption was lowered from 2.5% to 3.0%.
- The general wage growth assumption was lowered from 3.5% to 2.85% for ten years followed by 3.25% thereafter.
- The salary increase assumption was adjusted to reflect the changes in the general wage growth assumption.

**2016 Changes**

Changes in Actuarial Assumptions

- The discount rate was decreased to 4.66% from 8.0%
- The COLA was not assumed to increase for funding or the GASB calculation. It remained at 2% for all future years.
- The price inflation assumption was lowered from 3% to 2.75%.
- The general wage growth and payroll growth assumptions were lowered from 3.75% to 3.5%.
- Minor changes as some durations for the merit scale of the salary increase assumption.
- The pre-retirement mortality assumption was changed to the RP 2014 white collar employee table, male rates set back six years and female rates set back five years. Generational projection uses the MP 2015 scale.
- The post-retirement mortality assumption was changed to the RP 2014 white collar annuitant table, male rates set back three years and female rates set back three years, with further adjustments of the rates. Generational projection uses the MP 2015 scale.
- The post-disability mortality assumption was changed to the RP 2014 disabled retiree mortality table, without adjustment.
- Separate retirement assumptions for members hired before or after July 1, 1989, were created to better reflect each group's behavior in light of different requirements for retirement eligibility.
- Assumed termination rates were changed to be based solely on years of service in order to better fit the observed experience.
- A minor adjustment and simplification of the assumption regarding the election of optional form of annuity payment at retirement were made.

**TRA Retirement Fund (Continued)**

**2015 Changes**

Changes of Benefit Terms

- The DTRFA was merged into TRA on June 30, 2015.

Changes in Actuarial Assumptions

- The annual COLA for the June 30, 2015, valuation assumed 2%. The prior year valuation used 2% with an increase to 2.5% commencing in 2034. The discount rate used to measure the total pension liability was 8.0%. This is a decrease from the discount rate at the prior measurement date of 8.25%.

**Independent School District No. 720**  
**Notes to the Required Supplementary Information**

**General Employees Fund**

**2022 Changes**

Changes in Actuarial Assumptions

- The mortality improvement scale was changed from scale MP-2020 to scale MP-2021.

Changes in Plan Provisions

- There were no changes in plan provisions since the previous valuation.

**2021 Changes**

Changes in Actuarial Assumptions

- The investment return and single discount rates were changed from 7.5% to 6.5% for financial reporting purposes.
- The mortality improvement scale was changed from scale MP-2019 to scale MP-2020.

Changes in Plan Provisions

- There have been no changes since the prior valuation.

**2020 Changes**

Changes in Actuarial Assumptions

- The price inflation assumption was decreased from 2.5% to 2.25%.
- The payroll growth assumption was decreased from 3.25% to 3.0%.
- Assumed salary increase rates were changed as recommended in the June 30, 2019, experience study. The net effect is assumed rates that average 0.25% less than previous rates.
- Assumed rates of retirement were changed as recommended in the June 30, 2019, experience study. The changes result in more unreduced (normal) retirements and slightly fewer Rule of 90 and early retirements.
- Assumed rates of termination were changed as recommended in the June 30, 2019, experience study. The new rates are based on service and are generally lower than the previous rates for years 2-5 and slightly higher thereafter.
- Assumed rates of disability were changed as recommended in the June 30, 2019, experience study. The change results in fewer predicted disability retirements for males and females.
- The base mortality table for healthy annuitants and employees was changed from the RP-2014 table to the Pub-2010 General Mortality table, with adjustments. The base mortality table for disabled annuitants was changed from the RP-2014 disabled annuitant mortality table to the Pub-2010 General/Teacher disabled annuitant mortality table, with adjustments.
- The mortality improvement scale was changed from Scale MP-2018 to Scale MP-2019.
- The assumed spouse age difference was changed from two years older for females to one year older.
- The assumed number of married male new retirees electing the 100% Joint and Survivor option changed from 35% to 45%. The assumed number of married female new retirees electing the 100% Joint and Survivor option changed from 15% to 30%. The corresponding number of married new retirees electing the Life annuity option was adjusted accordingly.

Changes in Plan Provisions

- Augmentation for current privatized members was reduced to 2.0% for the period July 1, 2020 through December 31, 2023, and 0.0% thereafter. Augmentation was eliminated for privatizations occurring after June 30, 2020.

**Independent School District No. 720**

**General Employees Fund (Continued)**

**2019 Changes**

Changes in Actuarial Assumptions

- The mortality projection scale was changed from MP-2017 to MP-2018.

Changes in Plan Provisions

- The employer supplemental contribution was changed prospectively, decreasing from \$31 million to \$21 million per year. The State's special funding contribution was changed prospectively, requiring \$16 million due per year through 2031.

**2018 Changes**

Changes in Actuarial Assumptions

- The mortality projection scale was changed from MP-2015 to MP-2017.
- The assumed benefit increase was changed from 1.0% per year through 2044 and 2.5% per year thereafter to 1.25% per year.

Changes in Plan Provisions

- The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024.
- Interest credited on member contributions decreased from 4.0% to 3.0%, beginning July 1, 2018.
- Deferred augmentation was changed to 0.0%, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.
- Contribution stabilizer provisions were repealed.
- Post-retirement benefit increases were changed from 1.0% per year with a provision to increase to 2.5% upon attainment of 90% funding ratio to 50% of the Social Security Cost of Living Adjustment, not less than 1.0% and not more than 1.5%, beginning January 1, 2019.
- For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches Normal Retirement Age. Does not apply to Rule of 90 retirees, disability benefit recipients, or survivors.
- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

**2017 Changes**

Changes in Actuarial Assumptions

- The CSA loads were changed from 0.8% for active members and 60% for vested and non-vested deferred members. The revised CSA loads are now 0.0% for active member liability, 15% for vested deferred member liability and 3% for non-vested deferred member liability.
- The assumed post-retirement benefit increase rate was changed from 1.0% per year for all years to 1.0% per year through 2044 and 2.5% per year thereafter.

Changes in Plan Provisions

- The State's contribution for the Minneapolis Employees Retirement Fund equals \$16,000,000 in 2017 and 2018, and \$6,000,000 thereafter.
- The Employer Supplemental Contribution for the Minneapolis Employees Retirement Fund changed from \$21,000,000 to \$31,000,000 in calendar years 2019 to 2031. The State's contribution changed from \$16,000,000 to \$6,000,000 in calendar years 2019 to 2031.

**2016 Changes**

Changes in Actuarial Assumptions

- The assumed post-retirement benefit increase rate was changed from 1.0% per year through 2035 and 2.5% per year thereafter to 1.0% per year for all future years.
- The assumed investment return was changed from 7.9% to 7.5%. The single discount rate was changed from 7.9% to 7.5%.
- Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth, and inflation was decreased by 0.25% to 3.25% for payroll growth and 2.50% for inflation.

Changes in Plan Provisions

- There have been no changes since the prior valuation.

**2015 Changes**

Changes in Actuarial Assumptions

- The assumed post-retirement benefit increase rate was changed from 1.0% per year through 2030 and 2.5% per year thereafter to 1.0% per year through 2035 and 2.5% per year thereafter.

Changes in Plan Provisions

- On January 1, 2015, the Minneapolis Employees Retirement Fund was merged into the General Employees Fund, which increased the total pension liability by \$1.1 billion and increased the fiduciary plan net position by \$892 million. Upon consolidation, state and employer contributions were revised; the State's contribution of \$6.0 million, which meets the special funding situation definition, was due September 2015.

Notes:

- (1) Overlapping rates are those of local and county governments that apply to property owners within the District. Not all overlapping rates apply to all of the District's property owners (e.g., the rates for special districts apply only to the proportion of the District's property owners whose property is located within the geographic boundaries of the special district).

Notes: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the district. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the district. This process recognizes that, when considering the district's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

- (1) Net Bonded Debt, Net Tax Capacity and Estimated Population data is taken from other schedules within this Statistical Section.
- (2) The Indicated Market Value is calculated by dividing the taxable market value by the sales ratio.
- (3) The legal debt limit for a school district in Minnesota is 15% of the indicated market value of all taxable property within the school district.
- (4) The legal debt margin is calculated by subtracting outstanding net bonded debt from the legal debt limit.
